Management Report

1. Message from Management

The management of Porto Sudeste V.M. S.A. (the "Company"), in compliance with the legal requirements and in accordance with the prevailing corporate legislation, hereby submits to your appreciation the Financial Information accompanied by the respective explanatory notes and the independent auditor's report for the quarter ended March 31, 2022. Should you need any further clarifications, please do not hesitate to contact us. At the end of the first quarter of 2022, the Executive Board expresses their acknowledgement to suppliers, employees and all other co-workers for their dedication and commitment.

2. Relationship with independent auditors

Pursuant to CVM Rule No. 381/2003, we hereby inform that Ernst & Young Auditores Independentes S/S ("EY") renders external audit services relating to the audit of the Company's interim financial information.

In engaging services not related to independent audit, the Company adopts procedures that are based on the applicable law and on internationally accepted principles that preserve the auditor's independence and objectivity. These principles are the following: (i) the auditor must not audit his/her own work, and (ii) the auditor must not act, in a managerial manner, before its client, nor should it promote the interests of that client.

EY represented to the Company that there is no relationship or factual situation that represents conflict of interests, preventing the exercise of their activity on an independent basis.

3. Management's explanations with respect to variable-income securities

Variable-income securities

In February 2014, Trafigura Pte. Ltd. ("Trafigura") and Mubadala Development Company PJSC ("Mubadala"), through PSA Fundo de Investimento e Participações, acquired the control of Porto Sudeste, until then exercised by MMX Mineração e Metálicos SA ("MMX").

The investment agreement that regulated the acquisition of control of Porto Sudeste by Trafigura and Mubadala provided, among others, that the Company would assume, directly or indirectly, obligations related to variable remuneration securities based on royalties issued by MMX, traded on B3 S.A – BRASIL. BOLSA. BALCÃO ("B3") under the tricker MMXM11 ("MMXM11 Securities"). In this context, Porto Sudeste issued, on February 26th, 2014, Variable Remuneration Perpetual Securities ("VRPS"), in terms similar to the MMXM11 Securities ("Port11"), which were fully subscribed on the same date by MMX. The investment agreement also provided for MMX's obligation to carry out an exchange offer, aimed at all holders of the MMXM11 Securities, through which MMX would acquire the MMXM11 Securities, and deliver the Port11 Securities, or another security, in return backed by MMXM11 Securities ("Exchange Offer"). To implement such Exchange Offer, two different vehicles were used, in order to reach all holders of MMXM11 Securities:

- (i) <u>Porto Sudeste Royalties FIP-IE ("PSR"):</u> An infrastructure equity fund, which, at the time of the offer, held in its portfolio, exclusively, Port11 Security each Port11 Securities held by the PSR corresponded to a share. The PSR shares were offered to holders of MMXM11 Securities considered as qualified investors, under the terms of the regulation of the Brazilian Securities and Exchange Commission ("CVM"), and who had no restrictions to hold PSR shares.
- (ii) Porto Sudeste V.M. S.A.: A corporation registered with CVM under category 'b' that has issued a new royalty whose source is based on royalties, mirror of MMXM11 Security ("PSVM11 Securities"), such security being listed for trading on B3 (unlike the Port11 Securities, which are not admitted for trading on the stock exchange). Under the aforementioned Exchange Offer, PSVM11 Securities were offered to holders of MMXM11 Securities who (i) were not considered qualified investors, or (ii) had regulatory restrictions to hold FIP-IE shares as is the case of some investment funds.

As a way of addressing the situation of MMXM11 holders who eventually did not adhere to the Exchange Offer, MMX remained the holder of Port11 Securities in the same quantity of MMXM11 Securities not exchanged.

Upon completion of the Exchange Offer, Porto Sudeste has an obligation to pay the above vehicles and MMX, which in turn have an obligation to pay the holders of the exchanged shares/securities.

There are 983,407,010 Port11 Securities issued, being 98.61% held by PSR, 0.43% held by Porto V.M. and 0.96% held by MMX.

For more information, the indenture of the Port 11 Securities is available on the Porto Sudeste do Brasil website.

Royalties Calculation

Holders of Port11 Securities are entitled to variable quarterly remuneration, as defined in the indenture of the Port11 Securities ("Royalties"), calculated since January 1st, 2013, calculated based on the metric tonnage of iron ore or the value per ton for other loads, as the case may be, as follows:

$R = [(TMMF \times VpTMF) + (TMOC \times VpTDC)]*FP$

Where:

R = royalties payable in relation to each quarter of the fiscal year TMMF = Ton of Iron Ore shipped at the Port for the respective quarter TMOC = Ton of Other Cargoes shipped at the Port for the respective quarter VpTMF = Value per Ton of Iron Ore (as defined below) VpTDC = Value per Ton of Other Cargoes (as defined below) FP = Proportional Factor

For iron ore loads: the royalties related to iron ore loads shipped on Port in a certain calendar quarter shall be calculated, taking into account the amount of USD 5.00 per ton of iron ore ("value per ton of iron ore"). This value will be (i) adjusted annually at the variation in US PPI calculated from September 2010; and (ii) converted into reais, based on the exchange rate at the ending of the business day immediately prior to the actual payment date.

For other loads: the royalties related to other loads, other than iron ores (excluding non-dry loads, such as supply activities) conducted at the Port Terminal ("value per ton for other loads") will be calculated based on the load margin. "Load margin" (a) means the difference between the average cost per ton (excluding all non-cash items) incurred in relation to the services rendered by Porto Sudeste relating to the applicable load and the average value per ton effectively charged by Porto Sudeste for the services rendered in relation to such load; and (b) must be limited under any circumstance to USD 5.00 per shipped ton. The adjusted limit value of USD 5.00 per ton for load margin will be (i) adjusted annually at the variation in US PPI calculated from September 2010; and (ii) converted into reais, based on the exchange rate at the ending of the business day immediately prior to the actual payment date.

During the years 2013 to 2016, the commitment of royalties from Porto Sudeste do Brasil, related to iron ore, was the minimum between the volume shipped in each period and the take-or-pay volume indicated in the table below:

Tons (million)	2013	2014	2015	2016	
TMMF	13,6	31,9	36,8	36,8	

From 2017 onwards, the volume of iron ore generating royalties (TMMF, in the formula above) is no longer subject to a take-or-pay, being, therefore, simply the volume shipped. In the table below, you can see the tonnage carried out by the Sudeste Port of Brazil, with the start of operations in 2016, after commissioning carried out in 2015:

Tons (million)	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022 YTD	
TMMF	-	-	-	7,1	9,5	10,7	16,4	18,7	17,8	3,8	
TMOC	-	-	-	-	_	-	_	_	_	0.05	

As the shipped volume of iron ore in 2016 was lower than the take-or-pay volume, the royalty commitment is based on this second parameter.

In the first quarter of 2022, Porto Sudeste do Brasil shipped 3,778 thousand tons of iron ore (TMMF), which multiplied by the updated value per ton of US\$ 6,02 (VpTMF and VpTDC) resulted in royalties of US\$ 23,079 thousand in the period. The accumulated Royalties until this quarter is US\$ 1,086,587 thousand. No amount has been paid until this quarter.

Porto Sudeste VM, a wholly-owned subsidiary of Porto Sudeste do Brasil, has US\$ 4,672 thousand in accumulated royalties receivable, referring to the number of Port11 Securities it holds (proportion of 0.43% of the total).

Reconciliation of quantities shipped and amounts paid as Royalties (accumulated)	Shipped 2 ^{sd} quarter 2021	Shipped 3 rd quarter 2021	Embarcado 4º Trimestre 2021	Embarcado 1º Trimestre 2022	Take-or-pay/ Embarcado Acumulado

Royalty Porto VM issued (USD k)	134	102	100	99	4,672
Cash available for payment of Royalties	-	-	-	-	-
Royalties payable	-	-	-	-	-

Payment of Royalties

Payment of Royalties in each quarter will be made within 60 days from the end of each calendar quarter and is subject to the existence of cash available for payment of Royalties, calculated after the discount of applicable taxes, cash cost of operations, operating expenses, capital expenditures for maintenance, amounts arising from the reversal of certain cash provisions, as well as respecting the preference of certain creditors of Porto Sudeste, all pursuant to clause 5.2 of the indenture of Port 11 Securities ("Cash Available for Royalties").

Royalties will be cumulative, that is, in the event that, in a given quarter, the Cash Available for Royalties calculated by Porto Sudeste is not sufficient to allow the payment, in whole or in part, of the Royalties determined until then, such unpaid royalties must be added to the amount of royalties for the next quarter. Royalties shall only be considered due and payable when Porto Sudeste has determined sufficient Cash Available for Royalties for that purpose.

If, in a certain calendar quarter by the payment of current royalties the cash of issuer and Porto Sudeste is jointly higher than US\$10,000 ("Minimum Cash Reserve"), the issuer will use the values that exceed the minimum cash reserve ("Available Cash") to pay the effectively accumulated royalties to the holders of securities until the last day of said calendar quarter ("Accumulated Royalties").

It is agreed and understood that issuer is not required to pay such additional values established herein, unless an available cash is held by issuer in the last day of such calendar quarter and until the available cash limit, "available cash" means the value corresponding to (i) the addition of (a) all available cash values of Porto Sudeste and (b) the positive balances on all bank accounts of issuer and Porto Sudeste (with any financial institution), less (ii) the addition of (a) any values contributed by stockholders of Porto Sudeste through capital increase or stockholder loan, to the extent that such values remain as available cash of Porto Sudeste, (b) BNDES senior debt service reserve account and CESCE senior debt service reserve account, and (c) the values of cash allocated jointly by Porto Sudeste to the IRPJ - Corporate Income Tax, CSLL - Social Contribution on Net Income, and other obligations for which Porto Sudeste's independent auditors require provisioning.

On March 31, 2022, Porto Sudeste do Brasil carried out the financial calculations and identified that there was not enough available cash generation to pay royalties to holders of Port11 Securities.

Cash available for payment of Royalties (in thousands of reais)	2nd quarter 2021	3rd quarter 2021	4th quarter 2021	1st quarter 2022
Cash from trade receivables	425,605	435,089	247,549	296,825
Applicable Taxes	(60,649)	(74,467)	(35,276)	(42,298)
Operating Costs	(49,748)	(53,202)	(28,971)	(42,211)
Investment	(7,886)	(23,513)	(49,771)	(31,407)
Operating expenses	(32,133)	(44,587)	(29,159)	(34,751)
Subtotal Total Cash Available for Payment of	• • •		,	, ,
Royalties	275,189	239,320	104,372	146,158
Interests and Repayment of the Senior Debt	(294,684)	(239,864)	(132,055)	(147,528)
Total Cash Available for Payment of Royalties	(19,495)	(544)	(27,683)	(1,370)

The existing cash balance at Porto Sudeste do Brasil (Controlling Company) refers to the balance of contributions from shareholders and balances that must be maintained in accounts to meet any operational obligation, such as the guarantee account for the purchase of energy and PIS / COFINS deposited in court. In this quarter, there was no cash balance available for royalties' payments.

Cash available for payment of accumulated royalties (in thousands of reais)	2nd quarter 2021	3rd quarter 2021	4th quarter 2021	1st quarter 2022
Net Cash or Bank Accounts	26,026	36,187	9,604	19,950
Contributions by the stockholders and Mandatory balances	(26,026)	(36,187)	(9,604)	(19,950)
Total Cash Available for Payment of Accumulated Royalties	-	-	-	-

Port11 accounting policy

Porto Sudeste do Brasil records Port11 Securities in Liabilities, based on the Present Value of the Projected Cash Flow of the payment of royalties. In other words, the amount shown in the Balance Sheet is different from the amount of royalties accrued until this quarter. Porto Sudeste VM, records its right to receive royalties in Assets, corresponding to its portion on the value of Port11 securities, and the respective payment to PSVM11 holders in Liabilities.

Securities are measured in accordance with IAS 37 - Provisions, Contingent Assets and Contingent Liabilities based on projected cash flows from future security related payments discounted at an annual rate of 11.06%. These projections are based on the Porto Sudeste do Brasil Business Plan, which includes assumptions related to the growth of iron exports in the *Quadrilátero Ferrífero* of Minas Gerais, growth of the market share of Porto Sudeste do Brasil, volumes of ore originated by mines belonging to its shareholders, operations with other solid and liquid bulk, commodity price expectations, among others.

On March 31, 2021, the present value of discounted future cash flow amounted to US\$2,621,702.847, which converted into Brazilian reais totaled R\$12,421,103,748 (compared to US\$2,530,995,087, which converted into Brazilian reais totaled R\$14,124,218,083 as of December 31, 2021). Of those totals, the amounts corresponding to PSVM11 securities are represented at the base date of March 31, 2022 at US\$ 11,166,556, which converted into reais totaled R\$52,904,911 (US\$10,780,206, which converted into Brazilian reais totaled R\$60,158,945 as of December 31, 2021).

Itaguaí, May 16, 2022.

A free translation from Portuguese into English of Independent Auditor Review Report on Interim Financial Information prepared in Brazilian currency in accordance with accounting practices adopted in Brazil and with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB)

Report on review of interim financial information

The Shareholders and Board of Directors **Porto Sudeste V.M. S.A.** Itaguaí/RJ

Introduction

We have reviewed the accompanying interim financial statements of Porto Sudeste V. M., S.A. as at March 31, 2022 which comprise the interim statement of financial position as at March 31, 2022 and the related interim statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended, and a summary of significant accounting policies and other explanatory notes.

Management is responsible for the preparation and fair presentation of this interim financial information in accordance with the accounting standard NBC TG 21 - Demonstração Intermediária and in accordance with international standard IAS 34 – *Interim Financial Reporting*, emitida pelo *International Accounting Standard Board* (IASB), as well as the presentation of this information in a manner consistent with the accounting standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the interim financial information. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information referred to above are not prepared, in all material respects, in accordance with NBC TG 21 and IAS 34 applicable to the elaboration of interim financial information, and in accordance with accounting standards issued by the Brazilian Securities and Exchange Commission.

Significant uncertainty as to the Company's ability to continue as a going concern

We draw attention to note 1 to the quarterly information, which indicates that, as of March 31, 2022, the Company has accumulated losses of R\$2,309,285 and losses for the period of R\$7,008. This note, together with note 5, also indicates that the measurement of variable remuneration securities is directly related to the flow of future payments to the holders of the securities, estimated based on the volumes to be shipped in accordance with Porto Sudeste do Brasil S.A. business plan (Company's parent company). Additionally, the parent company Porto Sudeste do Brasil S.A. started its operations in January 2016 and will still depend on the financial support of its shareholders and/or resources from third parties until the operations generate sufficient cash to maintain its operational activities. This quarterly information was prepared on the assumption of normal continuity of operations and does not include any adjustments that would be required, if the plans of the parent company Porto Sudeste do Brasil S.A. do not achieve the expected results. Our conclusion is unqualified in this matter.

Rio de Janeiro, May 16, 2022.

Notes to interim financial information March 31, 2022 (In Brazilian Reais)

1. Operations

Porto Sudeste V.M S.A. ("Company") was created on July 16th, 2013 with the corporate purpose of participating in the capital of other companies, nationally or abroad, as partner, shareholder or quotaholder, on a permanent or temporary basis, as a parent company or non-controlling interest.

Since February 13th, 2014, the Company has been a wholly-owned subsidiary of Porto Sudeste do Brasil S.A. ("Porto Sudeste"), a privately-held company responsible for the port terminal named "Porto Sudeste", dedicated to handling iron ore. Installed on Ilha da Madeira in Itaguaí (Rio de Janeiro state), the terminal is strategically located and represents the shortest distance between iron ore producers in Minas Gerais state and the sea ("Porto Sudeste"). The project began to be built in July 2010 and began operations on a commissioning basis in August 2015 and commercially in January 2016.

At March 31st, 2022, the Company incurred a loss for the period of R\$ 7,008 and has accumulated losses of R\$ 2,309,285. The Company ended the first quarter of 2022 with a cash position of R\$ 26,114.

Its parent company Porto Sudeste still depends on the contribution of capital of the controlling shareholders to cover certain obligations with senior debt creditors that cannot be covered by the cash generated in the operation. These obligations include payment of bank guarantees and investments not related to maintenance. Management expects for the next 12 months that these obligations will total approximately US\$ 14 million. The parent company Porto Sudeste understands that the shareholders will provide the necessary resources.

The former parent company of Porto Sudeste, MMX Mineração e Metálicos S.A. ("MMX") had a variable remuneration security based on the movement of ore from Porto Sudeste, called as MMXM11, in circulation in the market. Upon the sale of the shareholding control of Porto Sudeste to the companies Trafigura Pte. Ltd. ("Trafigura") and Mubadala Development Company PJSC ("Mubadala"), through subsidiaries, it was agreed to assume the debt related to the MMXM11 securities by Porto Sudeste.

The investment agreement that regulated the acquisition of control of Porto Sudeste by Trafigura and Mubadala provided for MMX's obligation to carry out an exchange offer aimed at all holders of MMXM11 Securities, through which MMX would acquire MMXM11 Securities and would deliver Port11 Securities in return, or another security backed by Port11 Securities. The Company assumed the portion of outstanding MMXM11 Securities that (i) did not classify as qualified investors, or (ii) had regulatory restrictions to hold quotas in infrastructure investment funds (FIP-IE), as is the case with some funds of investment.

On December 31st, 2014, the issue of Variable Remuneration Securities Based on Royalties by the Company called PSVM11, which were fully subscribed by MMX, was approved in the minutes of the Extraordinary General Meeting. The completion of this issue was subject to the aforementioned secondary public distribution of variable remuneration securities based on royalties to be carried out by MMX.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

1. Operations (Continued)

On March 3rd, 2015, the secondary public distribution ended, with 12,539,802 royalty-based securities distributed, which were fully acquired by MMX through the delivery of an equal number of variable remuneration securities based on issuance royalties of Porto Sudeste do Brasil S.A. (Port11).

The holders of the aforementioned securities are entitled to variable quarterly remuneration, calculated since January 1st, 2013, calculated based on the metric tons of iron ore and other cargo shipped at the Porto Sudeste, in the amount of US\$ 5 (five US Dollars) per ton shipped, adjusted by the Producer Price Index (PPI), it being understood that, in any quarter, payments shall be limited to the Company's Available Cash and other conditions determined in the agreement - all in accordance with the terms provided for in the indentures of the aforementioned securities available on the Company's website and filed at the Brazilian Securities and Exchange Commission (CVM).

The measurements of these variable remuneration securities with the appropriate accounting impacts are described in Note 5.

Covid-19

There were no relevant impacts on our commercial operations and the volume operated was higher than estimated for the year.

2. Basis of preparation and presentation of financial statements

a) Quarterly financial information

This quarterly financial information was prepared and is being presented in accordance with the Brazilian Accounting Pronouncements Committee – "CPC 21 (R1)", Interim Statements and with the international standard IAS 34 – Interim Financial Reporting issued by the International Accounting Standards Board (IASB). The presentation of this information is in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Information Form.

In addition, the Company considered the guidelines issued in Technical Guideline OCPC 07, issued by the Brazilian Accounting Pronouncements Committee ("CPC") in November 2014, in preparing its financial statements. Thus, the relevant information specific to the financial statements is being disclosed and corresponds to that used by Management in its management.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

2. Basis of preparation and presentation of financial statements (Continued)

a) Quarterly financial information (Continued)

The Company Management authorized the completion of these quarterly financial information on May 16th, 2022.

b) Basis of preparation and measurement

The financial statements were prepared based on historical cost, except for certain financial instruments measured at fair value

c) Functional and reporting currencies

On January 1st, 2016, as the parent company Porto Sudeste do Brasil S.A. started to earn revenues substantially denominated in US Dollars, its functional currency was changed from the Brazilian Real to the US Dollar. Thus, Porto Sudeste V.M.S.A. in line with the change in the controlling shareholder's functional currency, also changed its functional currency to the US Dollar on January 1st, 2016. Accordingly, pursuant to Brazilian legislation and CPC 02 – Effect of changes in foreign exchange rates and translation of financial statements, the quarterly financial information is being presented in Brazilian Reais (R\$), translating the functional currency to the reporting currency (Brazilian Reais) with Assets and liabilities translated at the closing exchange rate for the period; income accounts at the exchange rate on the date of occurence; and the net equity by the historical value of formation.

d) Statement of cash flow

The statements of cash flow were prepared under the indirect method and are presented in accordance with CPC 03 (R2) - Statement of Cash Flows.

e) Accounting estimates

The financial statements were prepared based on various measurement bases used in accounting estimates. The accounting estimates involved in the preparation of the financial statements were based on both objective and subjective factors, and in line with management's judgment to determining the appropriate amount to be recorded in the financial statements. Significant items subject to these estimates and assumptions include the measurement of variable remuneration securities, as well as the analysis of other risks to determine other provisions, including for contingencies.

The settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the financial statements due to the uncertainties inherent in the estimation process. The Company reviews its estimates at least annually.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

3. Summary of significant accounting practices and estimates

In preparing this interim financial information the accounting practices described in detail below have been consistently applied by the Company to all the periods of the financial statement.

3.1. Financial instruments

a) Financial assets

i) Classification and measurement

Financial instruments are classified into three categories: measured at amortized cost; fair value through other comprehensive income and fair value through profit or loss. The classification of financial assets at initial recognition depends on the characteristics of the contractual cash flows and the business model for managing these financial assets. The Company presents its financial instruments as follows:

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise financial assets held for trading, financial assets designated on initial recognition at fair value through profit or loss or financial assets to be mandatorily measured at fair value.

Financial assets with cash flows other than payments of principal and interest are classified and measured at fair value through profit or loss. The net changes in fair value are recognized in profit or loss.

Amortized cost

A financial asset is classified and measured at amortized cost, when its purpose is to receive contractual cash flows and generate cash flows that are "exclusively principal and interest payments" on the principal amount outstanding. This assessment is performed at the instrument level.

Assets measured at amortized cost value use the effective interest method, less any impairment loss. Interest income is recognized by applying the effective interest rate, except for short-term credits when the recognition of interest would be immaterial.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

3. Summary of significant accounting practices and estimates (Continued)

3.1. Financial instruments (Continued)

a) Financial assets (Continued)

ii) Impairment of financial assets

The expected loss model is applied to financial assets measured at amortized cost or at fair value through other comprehensive income, with the exception of investments in equity Instruments. The Company did not identify impairment losses to be recognized in the years presented.

iii) Write-off of financial assets

The write-off (derecognition) of a financial asset occurs when the contractual rights to the asset's cash flows expire, or when the rights to receive contractual cash flows on a financial asset are transferred to a third party in a transaction in which, substantially, all risks and benefits of ownership of the financial asset are transferred. Any participation that is created or retained by the Company in such transferred financial assets is recognized as a separate asset or liability.

b) Financial liabilities

Financial liabilities are classified as at fair value through profit or loss when they are held for trading or designated at fair value through profit or loss. Other financial liabilities (including loans) are measured at amortized cost using the effective interest method.

3.2. Cash and cash equivalents

Cash equivalents are held by the Company for the purpose of meeting short-term cash commitments and not for investment or other purposes. The Company considers cash equivalents to be a short-term investment that is readily convertible into a known amount of cash and is subject to an insignificant risk of change in value. Therefore, an investment typically qualifies as a cash equivalent when it has a short-term maturity, for example, three months or less from the contract date.

3.3. Provisions (including contingencies)

Provisions are recognized when there is a present obligation (legal or not formalized) as a result of a past event, and it is probable that economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. When the Company expects the amount of a provision to be reimbursed, in whole or in part, the reimbursement is recognized as a separate asset, but only when the reimbursement is practically certain.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

3. Summary of significant accounting practices and estimates (Continued)

3.3. Provisions (including contingencies) (Continued)

The Company recognizes a provision for civil, labor and tax claims. The assessment of the likelihood of loss includes evaluation of available evidence, the hierarchy of laws, available case laws and the most recent court decisions and their relevance in legal system, as well as the opinion of external legal advisors. Provisions are reviewed and adjusted to take into consideration account changes in circumstances such as the applicable statute of limitation, conclusions of tax audits or additional exposures identified based on new issues or court decisions.

The settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the quarterly financial information due to uncertainties inherent in the process for their determination. The Company's management reviews its estimates and assumptions on an annual basis.

4. Cash and cash equivalents

	03/31/2022	12/31/2021
Cash and banks	26,114	114,923
	26,114	114,923

5. Variable remuneration securities

In February 2014, Trafigura Pte. Ltd. ("Trafigura") and Mubadala Development Company PJSC ("Mubadala"), through PSA Fundo de Investimento e Participações, acquired the control of Porto Sudeste, until then exercised by MMX Mineração e Metálicos SA ("MMX").

The investment agreement that regulated the acquisition of control of Porto Sudeste by Trafigura and Mubadala provided, among others, that the Company would assume, directly or indirectly, obligations related to variable remuneration securities based on royalties issued by MMX, traded on B3 S.A – BRASIL. BOLSA. BALCÃO ("B3") under the *tricker* MMXM11 ("MMXM11 Securities"). In this context, Porto Sudeste issued, on February 26th, 2014, Variable Remuneration Perpetual Securities ("VRPS"), in terms similar to the MMXM11 Securities ("Port11"), which were fully subscribed on the same date by MMX. The investment agreement also provided for MMX's obligation to carry out an exchange offer, aimed at all holders of the MMXM11 Securities, through which MMX would acquire the MMXM11 Securities, and deliver the Port11 Securities, or another security, in return backed by MMXM11 Securities ("Exchange Offer"). To implement such Exchange Offer, two different vehicles were used, in order to reach all holders of MMXM11 Securities:

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

5. Variable remuneration securities (Continued)

- (i) Porto Sudeste Royalties FIP-IE ("PSR"): An infrastructure equity fund, which, at the time of the offer, held in its portfolio, exclusively, Port11 Security - each Port11 Securities held by the PSR corresponded to a share. The PSR shares were offered to holders of MMXM11 Securities considered as qualified investors, under the terms of the regulation of the Brazilian Securities and Exchange Commission ("CVM"), and who had no restrictions to hold PSR shares.
- (ii) Porto Sudeste V.M. S.A.: A corporation registered with CVM under category 'b' that has issued a new royalty whose source is based on royalties, mirror of MMXM11 Security ("PSVM11 Securities"), such security being listed for trading on B3 (unlike the Port11 Securities, which are not admitted for trading on the stock exchange). Under the aforementioned Exchange Offer, PSVM11 Securities were offered to holders of MMXM11 Securities who (i) were not considered qualified investors, or (ii) had regulatory restrictions to hold FIP-IE shares as is the case of some investment funds.

As a way of addressing the situation of MMXM11 holders who eventually did not adhere to the Exchange Offer, MMX remained the holder of Port11 Securities in the same quantity of MMXM11 Securities not exchanged.

Holders of Port11 Securities are entitled to variable quarterly remuneration, as defined in the indenture of the Port11 Securities ("Royalties"), calculated since January 1st, 2013, calculated based on the metric tonnage of iron ore or the value per ton for other loads, as the case may be, as follows:

$R = [(TMMF \times VpTMF) + (TMOC \times VpTDC)]*FP$

Where:

R = royalties payable in relation to each quarter of the fiscal year TMMF = Ton of Iron Ore shipped at the Port for the respective quarter TMOC = Ton of Other Cargoes shipped at the Port for the respective quarter VpTMF = Value per Ton of Iron Ore (as defined below) VpTDC = Value per Ton of Other Cargoes (as defined below) FP = Proportional Factor

For iron ore loads: Royalties related to iron ore loads shipped at the Port in a given quarter will be calculated considering the amount of USD 5.00 per ton of iron ore ("value per ton of iron ore"). This amount will be: (i) annually adjusted in accordance with the variation of the US PPI calculated since September 2010; and (ii) converted into Brazilian Reais, based on the exchange rate closed at the end of the business day immediately preceding the date of its effective payment.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

5. Variable remuneration securities (Continued)

For other loads: Royalties related to other loads other than iron ore (excluding non-dry cargoes, such as supply activities) handled at the Port Terminal ("value per ton for other loads") will be calculated based on the margin of the charge. The "Load Margin" (a) means the difference between the average cost per ton (excluding all non-cash items) incurred in relation to services provided by Porto Sudeste related to the applicable load and the average value per ton actually charged by Porto Sudeste for services rendered in connection with such cargo; and (b) must be limited, under any circumstances, to US\$5.00 per ton shipped.

The adjusted limit value of US\$5.00 per ton for the load margin must be (i) adjusted annually in accordance with the variation of the US PPI calculated since September 2010; and (ii) converted into Brazilian Reais based on the exchange rate closed at the end of the business day immediately preceding the date of its effective payment.

During the years 2013 to 2016, the commitment of royalties from Porto Sudeste do Brasil, related to iron ore, was the minimum between the volume shipped in each period and the take-or-pay volume indicated in the chart below:

Tons (million)	2013	2014	2015	2016
T. 41 4E	40.0	21.0		
TMMF	13,6	31,9	36,8	36,8

From 2017 onwards, the volume of iron ore generating royalties (MTIO, in the formula above) is no longer subject to a take-or-pay, being, therefore, simply the volume shipped. In the chart below, you can see the tonnage carried out by the Porto Sudeste do Brasil, with the start of operations in 2016, after commissioning carried out in 2015:

Tons (million)	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022 YTD	_
TMMF	-	-	-	7,1	9,5	10,7	16,4	18,7	17,8	3,8	
TMOC	-	-	-	-	-	-	-	-	-	0,05	

As the shipped volume of iron ore in 2016 was lower than the take-or-pay volume, the royalty commitment is based on this second parameter.

If, in a given calendar quarter, upon payment of the then current Royalties, the free cash held by Porto Sudeste do Brasil exceeds US\$10 million ("Minimum Cash Reserve"), the issuer must use the amounts that exceed the Reserve Minimum Cash ("Available Free Cash") to pay the security holders the Royalties actually accumulated and not paid up to the last day of such calendar quarter ("Accumulated Royalties").

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

5. Variable remuneration securities (Continued)

There is no obligation of Porto Sudeste do Brasil to pay Royalties, except if there is Free Cash held by the issuer on the last day of such calendar quarter and up to the limit of such cash available. "Free Cash" means the amount corresponding to the amounts available in cash of Porto Sudeste do Brasil less the sum of: (a) amounts contributed by the shareholders of Porto Sudeste do Brasil through capital increase or shareholder's loans, to the extent that such amounts remain as available cash of Porto Sudeste do Brasil, (b) BNDES' senior debt service reserve account and CESCE's senior debt service reserve account, and (c) the cash amounts provisioned by Porto Sudeste jointly for Corporate Income Tax, Social Contribution on Net Income and other obligations for which the independent auditors of Porto Sudeste do Brasil require a provision.

On March 31, 2022, Porto Sudeste do Brasil carried out the financial calculations and identified that there was not enough available cash generation to pay royalties to holders of Port11 Securities.

Porto Sudeste do Brasil accounts Port11 Securities in Liabilities, based on the Present Value of the Projected Cash Flow of the payment of royalties. In other words, the amount presented in the Balance Sheet is different from the amount of royalties accumulated up to this quarter. Porto Sudeste VM, in turn, records its right to receive royalties in Assets, corresponding to its portion on the value of Port11 securities, and the respective payment to PSVM11 holders in Liabilities.

Securities are measured in accordance with IAS 37 - Provisions, Contingent Assets and Contingent Liabilities based on projected cash flows from future security related payments discounted at an annual rate of 11.06%. These projections are based on the Porto Sudeste do Brasil Business Plan, which includes assumptions related to the growth of iron exports in the Quadrilátero Ferrífero of Minas Gerais, growth of the market share of Porto Sudeste do Brasil, volumes of ore originated by mines belonging to its shareholders, operations with other solid and liquid bulk, commodity price expectations, among others.

On March 31, 2022, the present value of discounted future cash flow amounted to US\$2,621,702.847, which converted into Brazilian reais totaled R\$12,421,103,748 (compared to US\$2,530,995,087, which converted into Brazilian reais totaled R\$14,124,218,083 as at December 31, 2021). Of those totals, the amounts corresponding to PSVM11 securities are represented at the base date of March 31, 2022 at US\$ 11,166,556, which converted into reais totaled R\$52,904,911 (US\$10,780,206, which converted into Brazilian reais totaled R\$60,158,945 as at December 31, 2021).

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

6. Suppliers payable

	03/31/2022	12/31/2021
Publishing / disclousure expenses	39,816	42,610
Services rendered by companies	95,441	179,087
Audit fees	23,400	9,500
	158,657	231,197

7. Shareholders' equity

a) Capital

As of December 31st, 2018, the subscribed capital stock is represented by 6,051,410 common shares (the same number as of December 31st, 2017), nominative and with no par value, of which 9,000 shares are to be paid in, fully held by Porto Sudeste do Brasil S.A.

On February 28th, 2019, the amount of R \$ 670,000.00 received was paid-in as an advance for future capital with the issuance of shares of 4,054,438,670 common shares, with a unit issue price of R \$ 0.0002.

After the aforementioned capital increase, the Company now has a subscribed capital of R\$ 1,276,040.10, divided into 4,060,490,071.00 shares fully held by Porto Sudeste do Brasil S.A.

On December 28th, 2020, the amount of R\$ 400,000.00 received was paid-in as an advance for future capital increase with the issue of shares of 1,272,840,899 common shares, with a unit issue price of R\$ 0.00031425. After the aforementioned capital increase, the Company now has a subscribed capital of R\$ 1,676,040.10 divided into 5,333,330,970.00 shares fully held by Porto Sudeste do Brasil S.A.

b) Advances for future capital increase

In February 2021, the Company received from its parent company Porto Sudeste do Brasil S.A., as an advance for future capital increase, the amount of R\$100,000.

In April 2021, the Company received from its parent company Porto Sudeste do Brasil S.A. as an advance for future capital increase the amount of R\$200,000, of which R\$150,000 on April 16th and R\$50,000 on April 22nd, 2021.

In July 2021, the Company received from its parent company Porto Sudeste do Brasil S.A. as an advance for future capital increase the amount of R\$300,000.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

7. Shareholders' equity (Continued)

c) Accumulated translation adjustments

The Company has R\$ 42,840 related to accumulated translation adjustments as of March 31st, 2022, related to the conversion of the functional currency (US dollar) to the Company's presentation currency (Brazilian real), in compliance with technical pronouncement "CPC 02".

8. Expenses by nature

8.2.

8.1. Administrative expenses by nature:

	03/31/2022	03/31/2021
Audit fees Third-party services	(9,000) (51,247)	(9,500) (53,815)
Time party convioce	(60,247)	(63,315)
Financial result		
	09/30/2021	09/30/2020
Financial expenses Bank fees	(30,948)	(17,397)
	-	(78)
Interest Foreign Exchange	_	(13,864)

Income on financial investments Foreign Exchange	2,540 68 8,645			
	11,185	68		
Net financial result	(19,763)	(31,091)		

9. Provision for contingencies

The Company is a defendant in three labor claims filed by former employees of companies that acted in the construction of the port terminal Porto Sudeste, a project of its parent company, Porto Sudeste do Brasil S.A.

The Company has never contracted with such companies or their employees, nor has it participated in the construction or operation of the Porto Sudeste terminal, however it was included as a defendant in such actions by choice of claimants, potentially due to the similarity between the corporate names of the two companies.

Notes to interim financial information (Continued) March 31, 2022 (In Brazilian Reais)

9. Provision for contingencies (Continued)

The recognition of the Company's passive illegitimacy, with its consequent exclusion from the defendant, depends on judicial authorization, which may or may not be granted by the court. In the case of the actions mentioned herein, the exclusion of the Company from the defendant's side, however, was not authorized.

10. Subsequent events

Board of Directors

Advances for future capital increase

On April 13, 2022, the Company received from its parent company Porto Sudeste do Brasil S.A., the amount of R\$ 200,000 as an advance for future capital increase.
